### FINDINGS AND DECISION

This medical fee dispute is decided pursuant to Texas Labor Code §413.031 and applicable rules of the Texas Department of Insurance, Division of Workers' Compensation.

**Background**

1. 28 Texas Administrative Code §133.307 sets out the procedures for resolving medical fee disputes.
2. 28 Texas Administrative Code §134.403 sets out the reimbursement guidelines for outpatient hospital services.
3. The insurance carrier reduced payment for the disputed services with the following claim adjustment codes:
  - W3 – Request for reconsideration
  - 193 – Original payment decision is being maintained. Upon review, it was determined that this claim was processed properly

## Issues

1. What is the Medicare payment rule?
2. What is the applicable rule that pertains to reimbursement?
3. Is the requestor entitled to additional reimbursement?

## Findings

1. The services in dispute are for Outpatient Hospital Services with dates of service October 1, 2015. 28 Texas Administrative Code 134.403 (f) states in pertinent part,

The reimbursement calculation used for establishing the MAR shall be the Medicare facility specific amount, including outlier payment amounts, determined by applying the most recently adopted and effective Medicare Outpatient Prospective Payment System (OPPS) reimbursement formula and factors as published annually in the Federal Register.

The Medicare facility specific reimbursement amount is explained at, <https://www.cms.gov/Outreach-and-Education/Medicare-Learning-Network-MLN/MLNProducts/downloads/HospitalOutpaysysfctsh.pdf> as:

*“The payment rates for most separately payable medical and surgical services are determined by multiplying the prospectively established scaled relative weight for the service’s clinical APC by a conversion factor (CF) to arrive at a national unadjusted payment rate for the APC. The scaled relative weight for an APC measures the resource requirements of the service and is based on the geometric mean cost of services in that APC. The CF translates the scaled relative weights into dollar payment rates.*

*To account for geographic differences in input prices, the labor portion of the national unadjusted payment rate (60 percent) is further adjusted by the hospital wage index for the area where payment is being made. The remaining 40 percent is not adjusted. You may also receive the following payments in addition to standard OPPS payments:”*

The facility specific reimbursement amount for the service in dispute is calculated as follows:

**Payment rate** found at <https://www.cms.gov/Medicare/Medicare-Fee-for-Service-Payment/HospitalOutpatientPPS/Addendum-A-and-Addendum-B-Updates.html>

Procedure Code	APC	Status Indicator	Payment Rate	60% labor related	2015 Wage Index Adjustment for provider	40% non-labor related	Payment
90471	0437	S	\$53.54	$\$53.54 \times 60\% = \$32.12$	$\$32.12 \times 0.9512 = \$30.55$	$\$53.54 \times 40\% = \$21.42$	$\$30.55 + \$21.42 = \$51.97$

The Medicare Claims processing Manual defines the terms, Status Indicators, APC Payment Groups and Composite APCs as follows:

### 10.1.1 - Payment Status Indicators

*An OPPS payment status indicator is assigned to every HCPCS code. The status indicator identifies whether the service described by the HCPCS code is paid under the OPPS and if so, whether payment is made separately or packaged. The status indicator may also provide additional information about how the code is paid under the OPPS or under another payment system or fee schedule. For example, services with status indicator A are paid under a fee schedule or payment system other than the OPPS. Services with status indicator N are paid under the OPPS, but their payment is packaged into payment for a separately paid service. Services with status indicator T are paid separately under OPPS but a multiple procedure payment reduction applies when two or more services with a status indicator of T are billed on the same date of service.*

*The full list of status indicators and their definitions is published in Addendum D1 of the OPPS/ASC proposed and final rules each year. The status indicator for each HCPCS code is shown in OPPS Addendum B.*

## **10.2 - APC Payment Groups**

*Each HCPCS code for which separate payment is made under the OPPS is assigned to an ambulatory payment classification (APC) group. The payment rate and coinsurance amount calculated for an APC apply to all of the services assigned to the APC. A hospital may receive a number of APC payments for the services furnished to a patient on a single day; however, multiple surgical procedures furnished on the same day are subject to discounting. (See section 10.5 for discussion of multiple procedure discounting under the OPPS).*

### **2. 28 Texas Administrative Code 134.403 (f) states in pertinent part,**

The reimbursement calculation used for establishing the MAR shall be the Medicare facility specific amount, including outlier payment amounts, determined by applying the most recently adopted and effective Medicare Outpatient Prospective Payment System (OPPS) reimbursement formula and factors as published annually in the Federal Register. The following minimal modifications shall be applied.

(1) The sum of the Medicare facility specific reimbursement amount and any applicable outlier payment amount shall be multiplied by:

(A) 200 percent; unless

(B) a facility or surgical implant provider requests separate reimbursement in accordance with subsection (g) of this section, in which case the facility specific reimbursement amount and any applicable outlier payment amount shall be multiplied by 130 percent.

Review of the submitted medical claim finds implants were not requested. The maximum allowable reimbursement for the services in dispute listed on DWC 60 is calculated as follows:

- Procedure code 90471 has status indicator S. The total Medicare facility specific reimbursement amount for this line is \$51.97. This amount multiplied by 200% yields a MAR of \$103.94.

### **3. The total allowable reimbursement for the services in dispute is \$103.94. The amount previously paid by the insurance carrier is \$44.50. The requestor is seeking additional reimbursement in the amount of \$59.44. This amount is recommended.**

## **Conclusion**

For the reasons stated above, the Division finds that the requestor has established that additional reimbursement is due. As a result, the amount ordered is \$59.44.

## ***ORDER***

Based upon the documentation submitted by the parties and in accordance with the provisions of Texas Labor Code Sections 413.031 and 413.019 (if applicable), the Division has determined that the requestor is entitled to additional reimbursement for the services in dispute. The Division hereby ORDERS the respondent to remit to the requestor the amount of \$59.44 plus applicable accrued interest per 28 Texas Administrative Code §134.130 due within 30 days of receipt of this Order.
